An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Don Schurr on 02/05/05.

The application has been amended as follows:

In claim 1, line 6, after "pressure member," , --- wherein the disc completely encircles the penetration site --- has been inserted.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a method of reducing pain in combination with all the structural relationship and method steps and further comprising the step of surrounding the penetration site with the flat disk shape pressure member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
